January 6, 1936.

To the Honorable President and
Members of the Common Council of the
City of Indianapolis, Indiana.

Gentlemen:

I transmit to you herewith a proposed ordinance drawn at my request, the principal purpose of which is to prohibit dumping in

waterways in or near the City of Indianapolis, and wish to recommend its passage.

My action in this matter has been impelled by the serious condition which exists in certain parts of Fall Creek, and perhaps certain other streams within the City. Both the Board of Park Commissioners and the Board of Public Health are interested in the result at which this proposed ordinance aims, and I think there is no doubt that it would be extremely beneficial to the city as a whole.

Respectfully yours,

JOHN W. KERN,
Mayor.

Dear Sir:

I am enclosing herewith fourteen (14) copies of General Ordinance No. 1, 1936, entitled:

AN ORDINANCE concerning the salaries, wages, and compensation of officers and members of the Indianapolis Police Department

and members of the Indianapolis Fire Department, Indianapolis, Indiana, supplementing, suspending and repealing any and all general, special and appropriation ordinances heretofore enacted and in conflict herewith; also of any ordinance of the City of Indianapolis, Indiana, or any executive order heretofore made by any Board, Commission, Department or governing body of any department or official of said City; and fixing a time when the same shall take effect.

I am informed on reliable authority that in all cities and towns in the State of Indiana where reductions in salaries of Police and Firemen have been made, that such salaries have been fullly restored. Indianapolis is the single outstanding exception.

The meritorious conduct and efficient work of the Indianapolis Police Department entitles them to recognition with an increase in pay. The splendid work of the Indianapolis Fire Department in reducing the amount of fire losses which will ultimately reduce the amount of premiums paid by our citizens for fire insurance also deserves recognition with an increase in pay.

I believe it is time that the City of Indianapolis recognized the splendid work of our Police and Fire Departments and restored their pay to its original level in the same manner as the other cities and towns have done throughout the entire State of Indiana.

Yours very truly,

EDWARD R. KEALING,
City Councilman.

OTHER COMMUNICATIONS

January 4, 1936.

The Honorable Members of the Common Council,
City of Indianapolis.

Gentlemen:

As a citizen and taxpayer of Indianapolis the following matter of revenue to the City is presented for the consideration of the Common Council.

For many years, according to the records, the Indiana Bell Telephone Co. has paid to the City of Indianapolis the sum of $6,000.00 per annum. It is claimed that this amount is due and payable for the use and occupation of the city streets and alleys, as provided by a franchise granted by the City in 1896, known as General Ordinance No. 44, 1896. This franchise was granted to the Central Union Telephone Co., an Illinois corporation, under which franchise the Indiana Bell Telephone Co. claims to operate with respect to the City of Indianapolis. The claim is made that this is a perpetual or indeterminate franchise. The language in part used in said ordinances is:

"This agreement, made and entered into this 20th day of July, 1896, by and between the City of Indianapolis, Marion County, in the State of Indiana, hereinafter called the City, by and through its Board of Public Works, party of the first part, and the Central Union Telephone Company, a corporation organized and incorporated under and by virtue of the laws of the State of Illinois, hereinafter called the Company, party of the second part. Witnesseth, That the city, . . . does hereby authorize, empower and grant to said company, party of the second part, its *successors* and *assigns*" (here follow certain rights granted to the company). The duration or life of the franchise was left open and the Bell company is a successor of the Central Union Company.

The authority for the payment to the City of $6,000.00 per annum probably is claimed from the following language of said ordinance or franchise:

"The company, the party of the second part, agrees and binds itself to pay to the City Controller of the City of Indianapolis, Indiana, six thousand dollars ($6,000.00) per annum, in full payment for the use of the streets of the city, and in lieu of all service now furnished to the city free or at reduced rates, except as herein provided; . . ."

An examination of the ordinance discloses that no rate schedule for services to the public was adopted as was adopted in subsequent franchises by the City to various other telephone companies; hence the Bell company has its rates fixed by the Public Service Commission of Indiana and charges the City government the same rates for services as it charges the public at large. At the same time, the Bell company claims rights to the use and occupation of City streets and alleys at $6,000.00 per annum by virtue of the ordinance of 1896.

It is suggested that this annual payment of $6,000.00 to the City be revised in the interest of the taxpayers. Prior to the merger of the two companies, each company paid $6,000.00 to the City, or $12,000.00 annually. Since the merger of these properties the amount has been but $6,000.00.

It is fair to assume that this amount fixed in 1896 was a fair compensation to the City for the use and occupation of its streets and alleys then existent. In forty years growth, the limits of the City have been extended greatly and yet the Bell company pays no more for the use and occupation of streets and alleys in this extended territory.

The City has paid the increased service rates during this period of time, but has not had an adjustment of the $6,000.00 per annum compensation for the use of city streets and property. It would appear that such an adjustment is difficult so long as the City recognizes and submits to the claim of the company under the franchise granted by General Ordinance No. 44 of 1896.

It is suggested, therefore, that the City, by proper ordinance, disclaim and repudiate the further existence of any indeterminate or perpetual franchise as claimed by the Bell company and thereby take steps to place the City in a position to contract with the telephone company for an adjusted compensation for the use and occupation of City property.

Yours very respectfully,

WALTER O. LEWIS.

January 6, 1936.

To the Members of the
Indianapolis City Council,
City Hall,
Indianapolis, Indiana.

Greetings:

The undersigned, State Representative of the Brotherhood of Railroad Trainmen, respectfully requests the support of each of you

in the favorable consideration of General Ordinance No. 57, introduced by Councilman Fritz.

The Indianapolis members of the Brotherhood of Railroad Trainmen are of the opinion that the anti-picket ordinance of the City of Indianapolis is an abridgment of the rights of the workers of the city, who may become involved in strikes and that it is contrary to the public policy expressed in Chapter 12, Indiana Acts, 1933.

Your favorable consideration of the above named ordinance will be greatly appreciated.

Respectfully yours,

MARTIN H. MILLER,

State Representative,

BROTHERHOOD OF RAILROAD TRAINMEN,

Hotel English.

Indianapolis, Ind., January 6, 1936.

Gentlemen:

Attached please find copies of Special Ordinance providing for the gift of certain ground to the State of Indiana for armory purposes, and also copy of resolution adopted by the Board of Park Commissioners at its meeting February 27, 1936, pertaining to this ordinance.

On January 16th the Board of Park Commissioners resolved to give to the State of Indiana certain real estate for armory purposes, but to erect the building as planned, the steps and sidewalks would be on park property. It is therefore found that an additional plot of ground adjacent thereto is necessary for the State to carry out the plans for the armory, and this ordinance is to ratify the granting of the additional ground so necessary, as herein explained.

We respectfully recommend the passage of this ordinance.

Respectfully yours,

BOARD OF PARK COMMISSIONERS,

JACKIEL W. JOSEPH, President.

That the said real estate so granted to the State of Indiana was insufficient for such purposes and it is found that an additional plot of ground adjacent thereto is necessary for the State of Indiana to carry out the plans for armory purposes,

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF PARK COMMISSIONERS OF THE CITY OF INDIANAPOLIS, That under the said above and foregoing act does agree to cause a deed to be given, as soon as an ordinance is passed by the Common Council of the City of Indianapolis, authorizing same, to the State of Indiana, the additional real estate, located and situate on the East Bank of White River between 29th and 30th Streets in said City, more particularly described as follows:

Common Council of the City of Indianapolis,
City Hall,
Indianapolis, Indiana.

Gentlemen:

I am enclosing herewith fourteen copies of General Ordinance No. 33, 1936, entitled,

AN ORDINANCE concerning the salaries, wages and compensation of officers and members of the Indianapolis Police Department, Police Radio Department, Indianapolis Fire Department, and Gamewell Department, Indianapolis, Indiana, supplementing, suspending and repealing any and all general, special and appropriation ordinances heretofore enacted and in conflict herewith; also of any ordinances of the City of Indianapolis, Indiana, or any executive order heretofore made by any Board, Commission, Department or governing body of any department or official of said City; and fixing a time when the same shall take effect.

It has been stated in the newspapers that our Honorable Mayor John W. Kern has pledged to the Police and Firemen of the City of Indianapolis the restoration of a salary cut made four years ago, and that this cut will be restored starting January 1, 1937.

I have introduced two ordinances before this council asking that the salary cuts be restored, and the last ordinance which I introduced was exactly in line with the pledge made by our Mayor Kern.

If the members of this administration are sincere in restoring any part of these pay cuts, they will vote for this ordinance instead of making newspaper promises.

For about one and one-half years I have made a sincere effort to have the members of this administration give consideration to this ordinance. I am a Republican member of the council and for this reason believe that my efforts have failed. I sincerely believe that this ordinance should not be made a political football by the parties but that just and proper consideration should be given according to the merits of the ordinance.

Inasmuch as the Democratic members of the administration have gone on record as proposing this increase in pay, I feel that they

should get behind this ordinance rather than defer it from month to month for none other than political reasons.

Yours very truly,
EDWARD R. KEALING,
City Councilman.

Mr. Schumacher asked for a recess. The motion was seconded by Mr. Kealing and the Council recessed at 7:40 p. m.

The Council reconvened at 8:35 p. m. with the same members present as before.

GENERAL ORDINANCE NO. 37, 1936

AN ORDINANCE of the City of Indianapolis, Indiana, authorizing the issuance and sale of refunding bonds of said city, and matters connected therewith, and fixing a time when the same shall take effect.

WHEREAS, the City of Indianapolis now has outstanding bonds which will mature and be payable in the year 1936, for the payment of the principal of which no provision has been made; and

WHEREAS, at the regular levy period in September, 1935, the Common Council found that it would be for the best interests of the city and its taxpayers that the time of payment of the indebtedness evidenced by said bonds should be extended and the rate of interest thereon reduced, and that provision be made for the payment of the indebtedness evidenced by said bonds over such period of years as will equalize the tax burden, and that such result can be best obtained by the issuance and sale of refunding bonds of the city; and

WHEREAS, said bonds maturing in the year 1936 so to be provided for are as follows: City Hall Bonds of 1906, issued under date of July 1, 1906, in the amount of Three Hundred Thousand Dollars ($300,000), all of which are payable on July 1, 1936, and bear interest at the rate of three and one-half per cent (3½%) per annum; and

WHEREAS, the Common Council now finds that the foregoing amount of outstanding bonds of the city which will mature and be payable in the year 1936 is greater than can be reasonably provided for out of the taxes to be collected in said year on the rates here-

tofore established, and that the credit of the city will be seriously impaired in the event of failure to provide for the payment of said outstanding obligations; now, THEREFORE,

BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF INDIANAPOLIS, INDIANA:

Section 1. That for the purpose of obtaining funds with which to pay and cancel the outstanding bonds of the city hereinbefore described, which will mature and be payable on July 1, in the year 1936, and for the purpose of extending the time of payment of the indebtedness evidenced by said bonds, reducing the rate of interest thereon, and equalizing the burden of taxation, there shall be issued and sold three hundred (300) negotiable, direct, general obligation bonds of the city, in the sum of One Thousand Dollars ($1,000) each, numbered from 1 to 300, both inclusive, and designated as "City of Indianapolis, City Hall Refunding Bonds of 1936."

All of said refunding bonds shall be dated as of July 1, 1933, shall bear interest at a rate not exceeding three per cent (3%) per annum, the exact rate to be determined by bidding as hereinafter more particularly provided. Said bonds shall mature and be paid as follows: Ten (10) bonds on July 1, 1937, and ten (10) bonds each six (6) months thereafter until all of said bonds are paid.

Said bond sale notice shall state the time and place of sale, the purpose for which said bonds are issued, the amount thereof, the maximum rate of interest thereon, the time of payment, and the terms and conditions upon which bids will be received and the sale made, and such other information as the City Controller shall deem necessary.

Among other things said notice shall advise the bidders that all bids for said bonds shall be filed with the City Controller in his office in said city, in sealed envelopes marked "Bid for City Hall Refunding Bonds of 1936"; that each bid shall be accompanied by a certified check payable to the City of Indianapolis in an amount equal to two and one-half (2½%) of the amount of said bonds to guarantee the good faith of the bidder, and that in the event the bidder to whom the bonds are awarded shall fail or refuse to comply with the provisions of its bid, then said check and the proceeds thereof shall be and become the property of the City of Indianapolis and shall be taken and considered as the liquidated damages of the city on account of such failure or refusal. Said notice shall also provide that bidders for said bonds shall be required to name the rate of interest which said refunding bonds are to bear, not exceeding the maximum rate herein provided, and that such interest must be in multiples of one-fourth (¼) of one per cent (1%), and not more than one interest rate shall be named by each bidder; that the Controller will award said bonds to the highest qualified bidder who has submitted his bid in accordance with the notice of sale, and that the highest bidder will be the one who offers the lowest net interest cost to the city, determined by computing the total interest on all of the bonds to their maturities and deducting therefrom the premium bid, if any.

Section 6. No bid for less than the par value of said bonds, including the accrued interest from the date of said bonds to the date of delivery thereof, at the rate named in the bid, shall be considered. The City Controller shall have the right to reject any and all bids.

In the event the City Controller shall receive no satisfactory bid for said bonds at the time fixed in said notice of sale, he shall be authorized to continue to receive bids thereafter from day to day until a satisfactory bid has been received, and in the event of the continuation of sale the Controller shall open all bids filed at the same hour each day as stated in the bond sale notice.

Section 7. The Controller is hereby authorized and directed to have said bonds and coupons prepared, and the Mayor, Controller and Clerk are hereby authorized and directed to execute said bonds and the interest coupons to be attached thereto in the form and manner herein provided, and the Controller shall, after the execution of said bonds, deliver the same to the Treasurer. The Treasurer is hereby authorized and directed to deliver said bonds to the purchaser thereof upon receipt from the purchaser of the amount bid for said bonds, as certified to the Treasurer by the Controller.

Section 8. This ordinance shall be in full force and effect immediately upon its passage and signing by the Mayor.

Indianapolis, Ind., May 18, 1936.

To the Honorable President and
Members of the Common Council of the
City of Indianapolis, Indiana.

Gentlemen:

Your Committee on Public Safety, to whom was referred General Ordinance No. 87, 1935, has had the same under consideration and begs leave to report the same back to the Common Council with the recommendation that the same be amended by striking out all of

said ordinance after the enacting clause and inserting in lieu thereof the following:

Section 1. A taxicab, for the purpose of this ordinance, shall be deemed to mean a motor vehicle having a seating capacity of five (5) or less, in good mechanical condition, used for the performance of a contract for the transportation of a passenger, or passengers, for hire, to and from points chosen or designated by the passenger, or passengers, and running over any available route between such points, but not at the time being operated over and along a definite, advertised, announced or substantially fixed route from, to or between definite or substantially fixed terminals, locations or districts, or according to substantially fixed or announced times or intervals of arrival or departure.

Section 2. No person or persons, firm, company, association, partnership, or corporation shall engage in the business of operating a vehicle, or vehicles, as a taxicab, or taxicabs, upon the streets of the City of Indianapolis without first obtaining a license so to do, and upon complying with all of the provisions of this ordinance.

It is hereby declared by the Common Council of the City of Indianapolis that the public safety, convenience and necessity can best be served by limiting the number of taxicabs hereafter operating in the City of Indianapolis, each year to one (1) taxicab for each one thousand (1,000) population of said city, as shown on June 30 of that year, by the last official estimate of the United States census bureau, subject to the exceptions, rights and limitations hereinafter set out.

Licenses for 1936 issued under this ordinance shall first be issued upon application, as of right, to the holder and/or transferee of each license or de facto license issued by the city controller of the City of Indianapolis during the year 1934, provided that such holder and/or transferee has continued to operate such taxicab up to the effective date of this ordinance, and has heretofore made a tender to said controller of a license fee for renewal of such license, or de facto license; and if said holder and/or transferee has heretofore tendered a license fee to said city controller for issuance of a license for an additional taxicab or taxicabs, then such holder and/or transferee shall of right receive a license for 1936 under this ordinance for such additional taxicab or taxicabs up to an amount not to exceed twenty-five per cent (25%) of the number of such licenses and/or de facto licenses which such holder had in 1934; provided further that any such holder and/or transferees that had such additional cab or cabs in service on December 31st, 1935, and also had on file with the said Controller contracts of liability insurance covering such cab or cabs, shall of right have

the option to receive, in lieu of said 25%, licenses for the year 1936 under this ordinance for such additional cabs actually in service and covered by such insurance policies on file with the City Controller on said date.

All such applications by such holder for issuance of licenses under the rights designated in this section must be filed with the said controller within ten (10) days after the effective date of this ordinance.

All transferees and/or assignees of such original holders shall also have and succeed to the foregoing rights of such original holders.

Section 3. Every person, persons, firm, company, association, partnership or corporation issued licenses under this ordinance shall be entitled to have a renewal license issued for each year for each license issued under this ordinance, provided an application for such renewal license is filed with the City Controller within ten (10) days after the date of the expiration of any such license, and provided that said applicant otherwise qualifies for such licenses by complying with all the provisions of this ordinance required as conditions precedent to the issuance of the renewal licenses.

Any of such licenses may be transferred and assigned to any person, firm, partnership, association or corporation upon application to the City Controller, who, upon payment of a transfer fee of fifty cents (50c) for each of such transfers, shall duly transfer such licenses. Any such licensee may also transfer such license from one cab to another of which such licensee is the owner and/or operator, provided that the first cab be permanently retired from service, upon application to the said Controller and the payment of a transfer fee of fifty cents (50c).

Section 4. Such license, or licenses, for the operation of a taxicab, or taxicabs, under the provisions of this ordinance shall be issued by the City Controller to any person, firm, partnership, association or corporation which shall be the owner of the motor vehicle to be used as the taxicab, and/or the operator having the use of control of such taxicab, or either or both as their interests may appear in the application; and provided further, that such licensee is designated as an insured in the insurance policy or contract, or bond, to be filed with the City Controller, as required in Section 23 of this ordinance.

Section 5. All applications for a license to operate a taxicab, or taxicabs, or for the renewal of any license, shall be in writing, and shall be filed in duplicate with the city controller on forms prepared by such city controller, and shall in substance set forth the following information: (1) the name of applicant; if a partnership, the firm name and the names and addresses of the partners; if a corporation, the name and address of principal officer thereof; (2) business ad-

dress of the applicant; (3) the number of taxicabs desired to be licensed; (4) the seating capacity, name of manufacturer, horse power, motor number and state license number of each taxicab; (5) a statement of the general color scheme to be used by applicant; (6) the name, fictitious or otherwise, under which the applicant intends to operate; and (7) a financial statement.

Section 6. Whenever any holder of a right to a license, as specified in Section 2 hereof, files an application for such a license, and whenever hereafter an application for any renewal of license is filed with said Controller, then said Controller shall thereupon issue a license certificate to such applicant to operate such taxicab, or taxicabs, on the streets of the City of Indianapolis, subject to the provisions of this ordinance and to all amendments thereto, upon the payment of a license fee of Thirty-six Dollars ($36.00) per year for each taxicab to be operated under the terms and conditions of such license, and upon the filing of a liability contract of insurance providing for indemnification, as hereinafter provided in Section 24 hereof, and upon the production of a satisfactory report of inspection from the inspector of weights and measures and the officers in charge of the traffic division of the police department of the City of Indianapolis, as is provided in Section 2 of this ordinance.

All licenses shall expire on June 30 of each year. Each license certificate shall be numbered, which number shall also be the taxicab number, and must be placed on each vehicle operating as a taxicab in this city, as is provided for in Section 8 of this ordinance. Each applicant for renewal of any license issued by the City Controller of the City of Indianapolis for the year 1934, as provided in Section 2 of this ordinance, shall also pay to the City Controller for such renewal the license fee for the year 1935, and the pro rata portion of the year 1936 as shall have elapsed before the effective date of this ordinance at the rate of Thirty Dollars ($30.00) per year, and such applicant shall also pay the license fee provided in this ordinance from its effective date pro rated to June 30, 1936. Whenever any application is made for a new license, or for a transfer of a license, and the applicant for the new license or the proposed transferee is other than those applicants for a license or renewal designated in the first paragraph of this section, the Controller shall refer the same to the Board of Public Safety for investigation, and if it appears from the information obtained that the applicant is a reliable and bona fide owner or operator and has met all the requirements of this ordinance, that the name under which he is to operate and the color scheme used on the vehicle does not conflict with others nor tend to deceive the public—provided, however, that if two applicants have a similar color

scheme, then in such an event the applicant who has utilized such color scheme for the longer continuous period of time shall be the one entitled to use such color scheme thereafter, and the other applicant shall change such color scheme so as not to conflict with that of the applicant first referred to above—then the Board of Public Safety, subject to the approval of the Common Council, shall notify the City Controller, who shall thereupon issue a license certificate to such applicant to operate such taxicab or taxicabs subject to the provisions of this ordinance and all amendments thereof, upon compliance with all the other requirements heretofore provided in this section for all other applicants.

Licenses under this ordinance shall be issued in the name of the applicant.

Section 7. Every vehicle licensed under the provisions of this ordinance shall bear the name of a licensee thereof plainly printed in letters at least two (2) inches in height on each side of said vehicle. Each such vehicle shall likewise have the number of the taxicab assigned by the City Controller in letters at least four (4) inches in height on each side of said vehicle, and likewise on the rear of such vehicle immediately above or below the rear window of said vehicle. No name or taxicab number, other than one licensed by the City Controller shall appear on any taxicab or vehicle operating under the provisions of this ordinance, nor shall any vehicle licensed under this ordinance operate in the city without the current license certificate affixed in a prominent position therein.

Section 8. *Register of Licensed Vehicles.* The City Controller shall keep a register of the name of each person or corporation owning or operating a vehicle licensed under this ordinance, together with the license number, description and make thereof. Such record shall be open to the inspection of the public at all reasonable times and shall be a public record.

Section 9. *Taxicab Stands.* (a) The Board of Public Safety, subject to the approval of the Common Council, by an ordinance duly passed, is hereby authorized to locate, designate and establish all public taxicab stands and call boxes within the City of Indianapolis, and shall fix the number of taxicabs that shall be allowed to stand at any public taxicab stand so authorized. All public taxicab stands now lawfully established by previous ordinances of this city are hereby constituted as taxicab stands under this ordinance.

(b) No taxicab stand shall be established which is within twenty-five (25) feet of a street intersection, and no stand shall be

established which shall conflict with any safety zone or bus line zone heretofore established, or at any place where parking is prohibited.

Section 10. *Cruising and Soliciting.* No driver of a taxicab, while driving the same along any street shall solicit or request any person, or persons, to take passage in such taxicab at any place in the city, unless such person, or persons, shall signal such driver to stop, or in some other manner indicate that such person, or persons, desire the services of such taxicab.

Section 11. In order to promote honest and accurate charges and fares for taxicab service reckoned by meters and timing devices, and in order to prevent immoderate or careless riding or driving upon the streets of the City of Indianapolis, and in order to designate the kind and number of conveyances and vehicles that may or may not be used on streets of the city, and to prohibit dangerous vehicles from such streets, and to promote the general public safety, it is hereby made the duty of the inspector of weights and measures, and the officer in charge of the traffic division of the police department of the City of Indianapolis, to inspect periodically each taxicab: (1) as to mechanical condition necessary to be in good operating condition in order to insure safety in operation and control of all such taxicabs; (2) as to the condition and accuracy of the taximeter of each taxicab operating in the City of Indianapolis.

Section 12. It shall be unlawful for any person, persons, firm, company, association or corporation to own or operate any taxicab, or vehicle licensed under this ordinance, unless such taxicab is equipped with a practical standard fare register device or taximeter, in good and workable condition, designed to mechanically measure the distance traveled, to record the time said vehicle is waiting, and upon which said record there shall be indicated, by means of figures or designs, the fare to be charged. The taximeter of each licensed taxicab shall be inspected by the officer in charge of the traffic division of the Indianapolis Police Department and by the inspector of weights and measures of the City of Indianapolis at the same time and place that the examination and inspection of the mechanical condition shall occur. If such taximeter be found correct and accurate, a seal shall be attached to such taximeter, and it shall be unlawful for any person, except such inspector of weights and measures, or his deputy, to remove said seal from said meter. In the event any such meter does not register correctly, the owner, or person in charge of such taxicab, shall be directed to remove such meter from said taxicab, and the said taxicab shall not be operated on the streets of this city until a meter shall be placed in said taxicab which shall register correctly and accurately upon inspection.

Section 13. The inspections required by Sections 11 and 12 hereof shall be made at such times as the City Controller shall direct. Upon approval of the mechanical condition and of the taximeter of such taxicab, the inspecting officer shall issue to the owner of such taxicab a certificate showing that said taxicab has successfully passed inspection, and stating thereon the state license number, the certificate of title number, city taxicab number, engine number, the name or make of such taxicab, and the name of the owner thereof. A recapitulation of all such taxicab inspections shall be furnished the City Controller by the inspector of weights and measures before the first day of each month.

Section 14. Between the first and fifth days of each month, the owner of each taxicab operating in the City of Indianapolis shall, in person or by his duly authorized agent, present to the City Controller the last certificate of inspection furnished such owner as required by Section 13 hereof, and shall at the same time produce a fully paid-up liability insurance policy, as required by Section 23 hereof, together with a receipt showing payment of premiums therefor in full, or if said premiums be paid in installments, such receipt must show payment in advance for at least thirty (30) days. Upon showing of proper liability insurance and property coverage, the City Controller shall then issue to such taxicab licensee a certificate showing (1) the name of the owner, (2) the city license number, and (3) the signature of the City Controller; and said certificate shall be in the form prescribed by the City Controller. Such certificate shall expire on the fifth day of each calendar month. The City Controller shall so vary the color of such certificates that the same shall not be exactly alike for any succeeding month. Said certificate shall be gummed, and shall be pasted in a clearly visible manner at the lower right hand side of the windshield of each taxicab, and such certificate shall not be transferable, but shall be placed upon the taxicab for which it was issued. It shall be unlawful for any taxicab to operate on any street without a current certificate attached thereon, as in this section provided.

Section 15. *Illumination of Taximeter After Sundown.* After sundown the face of every taximeter shall be illuminated by a suitable light, so arranged as to throw a continuous, steady light thereon.

Section 16. *Case to be Sealed.* No person shall use, or permit to be used, or driven for hire, a taxicab equipped with a taximeter the case of which is unsealed and not having its cover and gear intact.

Section 17. *False Signal.* No driver of a taxicab which is equipped with a taximeter or other similar devices, while carrying passengers or under employment, shall display the signal affixed to such taximeter or other similar device in such position as to denote that he is employed at a rate of fare different from that of which he is entitled under the provisions of this ordinance.

Section 18. *Unapproved Taximeter.* No person shall drive a taxicab for hire to which is attached a taximeter that has not been duly inspected and approved.

Section 19. *Tampering With Meter.* No driver or operator of any taxicab shall permit any person to ride thereon or therein without the consent of the owner thereof, when the flag is up or toward a vertical position, and no person shall tamper with, break or mutilate any taximeter seal of the bureau of weights and measures.

Section 20. It shall be unlawful for any person who is engaged in the business of operating a taxicab, or taxicabs, in this city to drive or to require or permit any employee who is the driver or operator of any such taxicab, to operate or drive such taxicab for more than eight (8) consecutive hours, in the aggregate in any twenty-four (24) hour period; or to hire or permit any person to operate any taxicab unless such person be continuously licensed as a chauffeur pursuant to the laws of the State of Indiana, and cause such person to wear at all times the metal chauffeur's badge issued by the State of Indiana, or permit any such driver to wear a uniform or cap similar to those worn by the members of the Police or Fire Department of the City of Indianapolis, nor shall any taxicab operator wear such cap or uniform.

Section 21. *Rates of Fare.* No person, firm or corporation owning, operating or controlling any motor vehicle operated as a taxicab within the limits of the City of Indianapolis shall charge to exceed a schedule of rates posted in each taxicab. Each licensee shall cause a schedule of rates charged for the use of such taxicab to be posted in a conspicuous place therein in plain view of a passenger seated in the rear seat thereof.

No person, firm or corporation operating or controlling any motor vehicle operating as a cab or taxicab within the limits of the City of Indianapolis shall charge any rates except in accordance with the following schedules. No charge for taxicab service shall be less than the following schedule:

For the first mile and one-half (1½), or fraction thereof, fifteen cents (15c), and an additional ten cents (10c) for each additional mile or fraction thereof covered in said trip, up to a distance of five and one-half (5½) miles, with a minimum for any trip over five and one-half (5½) miles inside the city limits of fifty-five cents (55c); for each three (3) minutes waiting time, ten cents (10c); rates by the hour, one dollar and fifty cents ($1.50). No charge for taxicab service shall be greater than the following schedule: For the first mile or fraction thereof, twenty-five cents (25c); for each succeeding one-third (⅓) mile or fraction thereof, fifteen cents (15c); for each additional person for whole journey, ten cents (10c); for each three (3) minutes waiting time, or fraction thereof, ten cents (10c); rates by the hour, two dollars and fifty cents ($2.50).

Waiting time shall include the time when the taxicab is not in motion, beginning with the arrival at the place to which it has been called, or the time consumed by standing at the direction of the passenger, but no charge shall be made for time lost for inefficiency of the taxicab or operator, or time consumed by premature response to a call. If demanded by the passenger, the driver in charge of a taxicab shall deliver to the person paying for the hiring of the same at the time of such payment a receipt therefor in legible type or writing containing the driver's name, the cab number, taximeter number, and any items for which a charge is made, the total amount paid, and the date of payment.

Every holder of a license issued under the provisions of this ordinance shall file with the Board of Public Safety of the City of Indianapolis, within ten (10) days after the effective date of this ordinance, schedules, which shall be open to the public, showing all rates and charges which such licensee has established and which are enforced at the time for any service performed by such licensee in the operation of such taxicab. No change shall thereafter be made in any schedule, except on ten (10) days notice to said board and approval by the board and the Common Council. It shall be unlawful for any licensee to charge, demand, collect or receive a greater or less compensation for any service performed by such licensee, than is specified in such schedule

Section 22. *Record of Calls.* All taxicabs operated according to the provisions of this ordinance shall keep a daily record of all calls made and passengers transported, the time and place when and where the passenger was secured and the place where the passenger was

taken, and the number and sex of passengers, which record shall be kept by the licensee at the place of business stated in such license, and shall be open to inspection of any police officer at all times.

Section 23. *Bond or Insurance.* No person, firm or corporation shall operate or cause to be operated upon any public street within the City of Indianapolis a taxicab, as above defined, unless there shall first have been filed with the City Controller a bond, indemnity undertaking or policy of insurance executed by a company, mutual association or reciprocal exchange, legally authorized to execute such instruments in the State of Indiana, and to the approval of the City Controller, guaranteeing the payment of all damages which may result from any and all accidents due to the negligence in the use or operation of such taxicab, which bond, indemnity undertaking or policy of insurance shall be payable to the City of Indianapolis, for the benefit of persons other than employees of said person, firm or corporation who may suffer personal injury or death on account of such negligence, in a sum not less than Five Thousand Dollars ($5,000.00) for the injury or death of any one person, and in a sum of not less than Ten Thousand Dollars ($10,000.00) for the injury or death of more than one person in any one accident.

In addition to the above, each person, firm, operating company or corporation engaged in the business of operating taxicabs upon the streets of the City of Indianapolis shall also file in its behalf with the City Controller a similar bond, indemnity undertaking or policy of insurance executed by a company, mutual association or reciprocal exchange legally authorized to execute such instruments in the State of Indiana, and to the approval of the City Controller, in the sum of Five Hundred Dollars ($500.00), or deposit, and at all times keep on deposit with the City Controller Five Hundred Dollars ($500.00) in cash, or securities of the market value of Five Hundred Dollars ($500.00), to the approval of the City Controller, guaranteeing the payment of all damages to property of any person or corporation which may result from any and all accidents due to the negligence in the use or operation of such taxicab.

Section 26. In the event any section, sub-section, paragraph, sentence, clause, phrase or word of this ordinance shall be declared to be unconstitutional, by any court of competent jurisdiction, such action shall not affect the validity of the remainder of this ordinance.

Section 27. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

All such work to be done without unnecessary interference with the use of said street and with proper safeguards during such work.

ARTICLE 6.

Where any street railway tracks of the Company are in and upon the city streets, whether they are used by said Company for street railway cars or whether they are abandoned for further use by street railway cars, the Company shall, entirely at its own expense, place and maintain the entire space occupied by said track or tracks and between same, including a space of 18 inches from the center of the

outside rails of double tracks or from each rail of a single track, in a good and safe state of repair, free from obstructions to the use of said street and generally in a manner similar to that in which said track or tracks are now improved. The Company agrees to expend the sum of $750,000 for the rehabilitation of its street car tracks upon which the Company will continue to operate street cars and of that portion of the streets occupied by such tracks where the same will be rehabilitated, out of the proceeds of a loan made to the Company by the United States of America and as permitted by the Federal Emergency Administration of Public Works.

ARTICLE 7.

The Company agrees, upon the written order by the Board of Public Works and Sanitation made at any time after the abandonment of any track or tracks in any city street herein named, to remove the rails of its abandoned and unused tracks and the ties of such tracks if not embedded in hard paving material, also the unused poles and other unused appurtenances thereto, at its own expense, but without obligation on the Company to restore such street, and in accordance with the orders and direction of the Board of Public Works and Sanitation; provided, however, that the said Board of Public Works and Sanitation shall not order or direct the removal of more than two street miles of such abandoned track or tracks during any calendar year; and provided further, that no such tracks shall be ordered removed by said Board so long as removals of track made by the Company under the provisions of Article 5 shall average as much as two miles of removed track per year, and in any year in which an order for the removal of such track is made said Board shall credit the Company with any excess of such track over such average and such order shall require the removal in such year only of the difference between such excess and two miles. The Company further agrees that at any time after the abandonment of any track or tracks in any street herein named for use by trolley cars, the said City may remove such abandoned and unused tracks without any expense to said Company and without any obligation on the Company to restore such street; and in the event the City does remove said tracks at its expense, then the Company agrees that the City may keep and retain the said rails and tracks so removed as its property and that the said City may have the benefit of the proceeds therefrom; provided, that before the City removes any such track it shall give the Company written notice of its intention to do so, specifying therein the track or tracks which the City desires to remove and the time within which it intends to remove the same, and the Company may then within

thirty days from the receipt of such notice notify the City in writing that it elects to remove such track or tracks within the time stated in such notice, and if such election is made the City shall not remove such track or tracks, unless the Company fails to remove the same within such time, but if the Company fails to make such election within said thirty days, the City may then remove such track or tracks.

ARTICLE 8.

The Company agrees to pay the City for the actual number of miles of streets used by the Company for trackless trolley car operation where street cars are not also being operated on rails at the rate of Three Hundred and Twenty-four Dollars and Seventy-six Cents ($324.76) per mile per annum from and after March 26, 1936, payment therefor to be made semi-annually as herein provided. Upon the first day of July and the first day of January of each year the Company shall file with the Board of Public Works and Sanitation a verified statement showing the actual number of miles of such streets used for trackless trolley service during the preceding period and shall also set forth any additions to such service or any abandonments thereof made during said period, together with the dates upon which said additions or abandonments were made; a copy of such statements shall at said time be filed with the City Controller and the City Civil Engineer. From such statement so filed there shall be computed the average number of miles of such streets actually used for trackless trolley purposes during said period and the amount due said City at said rate of $324.76 per mile per annum, or at the option rates hereinafter provided; and on said dates the said Company agrees to pay to the City Controller the amount then due for the preceding period, together with interest at the rate of 6% per annum after said date upon any payments not paid when the same become due as herein provided. It is expressly provided, however, that in view of the fact that the said Company has heretofore obligated itself to pay large sums as installments upon the purchase of equipment during the ensuing 7 years, that the Company may, if it so elects, pay the City in accordance with the rates fixed in the schedule following, to-wit:

$162.00 per mile per annum during 1936;
$212.00 per mile per annum during 1937;
$275.00 per mile per annum during 1938;
$350.00 per mile per annum during 1939;
$400.00 per mile per annum during 1940;
$425.00 per mile per annum during 1941;
$449.32 per mile per annum during 1942;

And during the 8th year and each ensuing year thereafter during the term of this agreement the sum of $324.76 per mile per annum as hereinabove provided for.

In determining the number of miles of streets so used by trackless trolleys the actual lineal miles of streets or other public places used by trackless trolleys where street cars are not also operated on rails shall govern, without regard to whether such streets or public places are traversed by a single or double line of trackless trolley.

The Company shall be entitled to take full credit against the amounts becoming payable to the City hereunder for all amounts charged or assessed, or to be charged or assessed, against it on account of street improvements made under contracts entered into subsequent to March 26, 1936, in accordance with the provisions for such charges or assessments contained in the temporary permits heretofore issued to the Company for trackless trolley operation by the Board of Public Works of the City. Each verified statement herein provided for shall show all amounts paid by the Company during the period for which such statement is made on account of the charges or assessments for which the Company is hereunder entitled to take credit, specifying the improvements on account of which such payments were made, and the City Controller shall allow to the Company full credit therefor against the amount which such statement shows is due from the Company to the City; and if the amounts paid by the Company on account of such deductible charges or assessments for such period exceed the amount due the City from the Company for the same period, then the Company shall be entitled to take credit for such excess amount against subsequent payments becoming due hereunder from the Company to the City until the Company shall have received full credits for said amounts.

ARTICLE 9.

This contract shall, from and after its ratification by the Common Council of the City, supercede in all respects the temporary permits for trackless trolley car operation which were heretofore issued to the Company by the Board of Public Works of the City, and said temporary permits shall thereupon cease and terminate.

Nothing contained or expressed in this agreement shall in any wise impair any indeterminate permit from the State of Indiana held by the Company or any rights or obligations of the Company thereunder. Neither the City nor the Company shall be deprived by anything contained or expressed in this agreement of any rights or reme-

dies that may be accorded them by said Act of the General Assembly of the State of Indiana, approved March 4, 1913, known as the Shively-Spencer Utility Commission Act, or any amendments thereof, or accorded by any regulations or orders of the Public Service Commission of Indiana made pursuant to authority conferred on said Commission by law.

IS WITNESS WHEREOF, said parties have hereunto set their hands and seals this 25th day of May, 1936.

GENERAL ORDINANCE NO. 41, 1936

AS ORDINANCE amending Section 6 of General Ordinance No. 87, 1935, and naming an effective date.

BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF INDIANAPOLIS, INDIANA:

Section 1. That Section 6 of General Ordinance No. 87, 1935, be and the same hereby is amended to read as follows:

"Section 6. Whenever any holder of a right to a license, as specified in Section 2 hereof, files an application for such a license, and whenever hereafter an application for any renewal of license is filed with said Controller, then said Controller shall thereupon issue a license certificate to such applicant to operate such taxicab, or taxicabs, on the streets of the City of Indianapolis, subject to the provisions of this ordinance and to all amendments thereto, upon the payment of a license fee of Thirty-six Dollars ($36.00) per year for each taxicab to be operated under the terms and conditions of such license, and upon the filing of a liability contract of insurance providing for indemnification, as hereinafter provided in Section 23 hereof, and upon the production of a satisfactory report of inspection from the inspector of weights and measures and the officers in charge of the traffic division of the police department of the City of Indianapolis, as is provided in Sections 11, 12 and 13 of this ordinance.

Whenever any application is made for a new license, or for a transfer of a license, and the applicant for the new license or the proposed transferee is other than those applicants for a license or renewal designated in the first paragraph of this section, the Controller shall refer the same to the Board of Public Safety for investigation, and if it appears from the information obtained that the applicant is a reliable and bona fide owner or operator and has met all the requirements of this ordinance, that the name under which he is to operate and the color scheme used on the vehicle does not conflict with others nor tend to deceive the public—provided, however, that if two applicants have a similar color scheme, then in such an event the applicant who has utilized such color scheme for the longer continuous period of time shall be the one entitled to use such color scheme thereafter, and the other applicant shall change such color scheme so as not to conflict with that of the applicant first referred to above—then the Board of Public Safety, subject to the approval of the Common Council, shall notify the City Controller, who shall thereupon issue a license certificate to such applicant to operate such taxicab or taxicabs subject to the provisions of this ordinance and all amendments thereof, upon compliance with all the other requirements heretofore provided in this section for all other applicants.

Licenses under this ordinance shall be issued in the name of the applicant."

COMMUNICATIONS FROM THE MAYOR

Indianapolis, Ind., June 3, 1936.

To the Honorable President and
Members of the Common Council of the
City of Indianapolis, Indiana.

Gentlemen:

I am today approving and returning to the City Clerk, Mr. Daniel J. O'Neill, the following ordinances:

APPROPRIATION ORDINANCE NO. 17, 1936

AN ORDINANCE appropriating the sum of Ten Thousand Dollars ($10,000.00) from the unappropriated and unexpended balance of December 31, 1935, in the General Fund of the Department of Public Parks, to the Department of Public Parks Budget Fund No. 43—Street and Alley Materials, and fixing a time when the same shall take effect.

APPROPRIATION ORDINANCE NO. 18, 1936

AN ORDINANCE of the City of Indianapolis, Indiana, appropriating the sum of Three Hundred Thousand Dollars ($300,000.00) to pay certain outstanding bonds of said city not provided for in existing budgets and levies, and fixing a time when the same shall take effect.

GENERAL ORDINANCE NO. 41, 1936

As Amended

AN ORDINANCE amending Section 6 of General Ordinance No. 87, 1935, and naming an effective date.

Respectfully,
JOHN W. KERN,
Mayor.

Indianapolis, Ind., June 4, 1936.

To the Honorable President and
Members of the Common Council of the
City of Indianapolis, Indiana.

Gentlemen:

I am returning to the City Clerk unsigned General Ordinance No. 35, 1936, "An Ordinance transferring moneys from a certain fund in the Department of Public Safety, reappropriating and reallocating the same to another fund in said department, and fixing a time when the same shall take effect."

This I am doing for the reason that a mistake was made in drafting the ordinance, in that the transfer of funds as set out in said ordinance is from Police Department Fund No. 11 to Police Department Fund No. 12, whereas the transfer should have been from Police Department Fund No. 11 to Board of Safety Fund No. 12.

It is my hope that in reconsidering this matter, the members of the Common Council will follow the recommendation of the Board of Safety and make available a more adequate fund for the use of the Merit Commission.

The City of Indianapolis is extremely fortunate in having as members of the Commission men of such standing and ability as Mr. Rowland Allen, Dr. Pfaff and Dr. DeArmond, whose services are and will be invaluable in establishing the Merit System in the Police and Fire Departments on a working basis, and in conformity with the spirit of the Merit System Act. I am sure that the citizens of Indianapolis favor the Merit System as applied to the Police and Fire Departments, and have confidence in the personnel of the Merit Commission; and I further feel that a refusal to appropriate adequate funds for the use of the Merit Commission may result in seriously hampering the establishment of the Merit System in these departments in its initial and most important stage.

Respectfully yours,
JOHN W. KERN,
Mayor.

COMMUNICATIONS FROM CITY OFFICIALS

Indianapolis, Ind., June 15, 1936.

To the Honorable President and
Members of the Common Council of the
City of Indianapolis, Indiana.

Gentlemen:

Attached please find copies of Appropriation Ordinance No. 21, 1936, appropriating the sum of Nine Hundred Three Dollars and Forty-six Cents ($903.46) from the unexpended and unappropriated 1935 balance of the general fund for the use of the Department of Law in payment of judgments.

I respectfully recommend the passage of this ordinance.

Yours very truly,
WALTER C. BOETCHER,
City Controller.

Indianapolis, Ind., June 12, 1936.

Mr. Walter C. Boetcher,
City Controller,
City of Indianapolis.

Dear Sir:

Attached please find nineteen copies of an appropriation ordinance, appropriating to Department of Law Fund 53—Refunds, Awards and Indemnities, the sum of $903.46 from the unexpended and unappropriated 1935 balance of the general fund, to be used in the payment of judgments rendered in Marion Superior Court, Room 1, to certain employees of the Board of Health of the City of Indianapolis, for services rendered from December 16, 1935, to December 31, 1935. The judgments amounted to $843.91 and the costs to $59.55, making a total of $903.46. The twenty-seven persons who obtained these judgments were regular employees of the Department of Public Health and Charities throughout the year 1935. Due to the fact that the amount appropriated in the annual budget for 1935 was insufficient to pay the compensation to which these persons were entitled, they did not receive any compensation from December 16, 1935, to December 31, 1935. It is my opinion that money should be appropriated to the Department of Law so that the total amount of the judgments and costs may be paid by this department, as in the case of all other judgments rendered against the City of Indianapolis.

I recommend the passage of this ordinance.

Very respectfully yours,
JAMES E. DEERY,
Corporation Counsel.

Indianapolis, Ind., June 13, 1936.

INTRODUCTION OF GENERAL ORDINANCES

By the Board of Public Works and Sanitation:

GENERAL ORDINANCE NO. 42, 1936

AN ORDINANCE authorizing the alienation, sale and conveyance of certain real estate and the acquiring and purchase of other real estate, or an easement therein, by the proper authorities of the City of Indianapolis, and fixing a time when the same shall take effect.

WHEREAS, the Indianapolis Water Company now owns two parcels of land, hereinafter described as Parcels 1 and 2, which it is necessary that the City either acquire outright or acquire a permament easement thereto, lying along the east side of Fall Creek in Indianapolis, Marion County, Indiana, and which parcels of land are to become part of a flood prevention project and boulevard in the City of Indianapolis, from Sixteenth Street north to the Central Canal of the Indianapolis Water Company along the east side of Fall Creek, and which project is known as Project No. 6017 of the Works Progress Administration of Indiana; and

WHEREAS, the City of Indianapolis now owns two parcels of land, hereinafter described as Parcels 3 and 4, located in the same vicinity as the aforesaid parcels now owned by the Indianapolis Water Company, which have been acquired heretofore by the said City in an excess condemnation for the flood prevention and boulevard project heretofore mentioned, and which are not now of any particular or material value to the said City save for a necessary flood prevention and boulevard easement which must be retained therein, and it appears now to be for the best interests of said City to accomplish an exchange—that is to say, an even purchase and sale—of land with the Indianapolis Water Company, or otherwise effect such sale and purchase, and that the same should be authorized upon the terms and conditions indicated or hereinafter set out, so that the City of Indianapolis might acquire by purchase Parcels 1 and 2, or a permanent easement therein, and the City of Indianapolis might sell or otherwise dispose of Parcels 3 and 4 to the said Indianapolis Water Company, subject,

however, to the retention of a necessary easement over and in such parcels owned by said City as is necessitated by such boulevard and flood prevention project; NOW, THEREFORE,

BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF INDIANAPOLIS, INDIANA:

Section 1. That the proper authorities of the City of Indianapolis are hereby authorized to file in the Circuit Court of Marion County, Indiana, a proper petition for the appointment by the judge of said court of three disinterested freeholders of said City to appraise the fair market value of each of said four parcels of land set out in the preamble as hereinafter described, and which preamble is hereby made a part of this Section by this reference thereto and upon report of such appraisal filed in said court as required by law, and subject to the reservations mentioned heretofore, a sale and purchase or the aforesaid mutual exchange (even purchase and sale) of said property, or of a permanent easement therein, shall be effected as follows:

If the market value of Parcels 1 and 2 combined should be appraised at the same amount as the market value of Parcels 3 and 4, then the proper authorities of said City, if there is no higher offer therefor, are hereby authorized to alienate, sell and convey said two parcels now owned by the City to the Indianapolis Water Company, subject to the reservations heretofore mentioned, in consideration of the sale and conveyance to said City, at the same price, of its aforesaid two parcels of real estate, or a permanent easement therein, each of said conveyances to be by warranty deed, or in case of an easement, by a grant of easement, either free from or subject to any taxes and municipal assessments thereon and upon such other terms, including those relative and necessary thereto, as the parties may agree; or if such real estate owned by either party exceeds in such appraised value the appraised value of that belonging to the other party, such difference shall be paid to the party entitled thereto, as a further condition of such sale, purchase or exchange; and if due from the City, shall be paid from any funds now or hereafter appropriated and available for that purpose.

Section 2. In the event such mutual exchange is not effected as aforesaid, then said City authorities are authorized to alienate, sell and convey both or either parcel of its said lands, at either public or private sale and upon such notice as the Mayor may determine, for not less than the appraised value thereof; and the proper authorities of said City are further hereby authorized to purchase said land, or a permanent easement therein, belonging to the said Indianapolis

Water Company, at its appraised value or at such price and on such terms as may be agreed upon by the parties, and whenever funds are available for that purpose by appropriation thereof.

INTRODUCTION OF RESOLUTIONS

By Councilman Cable:

RESOLUTION NO. 2, 1936

WHEREAS, from the 1st day of July, 1899, to about January 1, 1920, the City of Indianapolis received Six Thousand Dollars ($6,000) annually from either the New Telephone Company or the Indianapolis Telephone Company and the New Telephone Company

jcintly for the use of the city streets and public places (see Municipal Code 1904, Sec. 3878 et seq; Mun. Code 1917, Sec. 3287 et seq.); and

WHEREAS, from February 24, 1897, to about January 1, 1920, the City of Indianapolis received an additional Six Thousand Dollars ($6,000) per annum from the Central Union Telephone Company for the use of its streets and public places (see Municipal Code 1904, Sec. 3868 et seq.); and

WHEREAS, said Central Union Telephone Company on or about January 1, 1920, bought the physical property of the Indianapolis Telephone Company (theretofore consolidated with the New Telephone Company); and

WHEREAS, said Central Union Telephone Company has been bought by, or merged with, the Indiana Bell Telephone Company, which last named company is now using the streets and public places of said city; and

WHEREAS, it appears that since about January 1, 1920, the City of Indianapolis has received but Six Thousand Dollars ($6,000) annually for the use of its streets and public places by the Central Union Telephone Company or its successor, the Indiana Bell Telephone Company; and

WHEREAS, it appears that said city received from the years 1899 to 1920 the total sum of Twelve Thousand Dollars ($12,000) per year from telephone companies for franchise payments and is now receiving but Six Thousand Dollars ($6,000) per year for the same; and

WHEREAS, data from cities of similar or comparable size all over the United States shows that the telephone companies in said cities pay a much larger sum than Six Thousand Dollars ($6,000) to such cities for the use of its public ways and streets; and

WHEREAS, the Common Council of the City of Indianapolis feels that said city should receive such franchise payments for the use of its streets and ways by the Indiana Bell Telephone Company as are paid for similar privileges by telephone companies in other cities of similar and comparable size, NOW, THEREFORE,

BE IT RESOLVED BY THE COMMON COUNCIL OF THE CITY OF INDIANAPOLIS, INDIANA:

Section 1. That the Common Council feels that the present situation, existing under and pursuant to present arrangements between the City of Indianapolis and the Indiana Bell Telephone Company, constitutes a condition that is obviously unfair to the City of Indianapolis, and we, the members of the Common Council, hereby recommend that the Board of Public Works and Sanitation of the City of Indianapolis should advise with the Department of Law of said city and should enter into negotiations with the Indiana Bell Telephone Company, within one hundred and twenty (120) days from the passage of this resolution, and that such action should be taken, consistent with the provisions of the Shively-Spencer Act and the regulations of the Public Service Commission of Indiana, to bring about a more equitable arrangement between the Indiana Bell Telephone Company and the City of Indianapolis with reference to a larger payment by the said telephone utility to the said city for the use of its said streets and public places.

Section 2. This resolution shall be in full force and effect from and after its passage and approval by the mayor.

Which was read the first time and referred to the Committee on Public Works.

COMMUNICATIONS FROM CITY OFFICIALS

Indianapolis, Ind., July 6, 1936.

To the Members of the Common Council,
City of Indianapolis, Indiana.

Gentlemen:

I had intended appearing before your honorable body this evening for the purpose of explaining a request for an appropriation for $600.00 now pending before the council. However, an unavoidable en-

gagement prevents my presence at the meeting. Will you permit me therefore to emphasize in writing the urgent need for this rather small appropriation?

As you, no doubt, are aware, it is one of the duties of the Department of Health to keep a record of all births and deaths which occur in the City of Indianapolis. These are first recorded by machine on the vital statistics books and then in turn indexed in order that reference may be made to the copies in cases where a certified copy is requested. These copies are used by insurance companies, to secure passports, to collect insurance, to provide legal age for employment, marriage and the military service.

Owing to the fact that some two years ago the personnel in this office was reduced we have attempted to keep this work up to date with the present number of employes. However, the school attendance law, the recently passed social security act and the bonus payment have swamped the department. We therefore find ourserves very much in arrears with the indexing and recording of these very important documents.

With the $600.00 we would be able to employ additional help and bring all of this work up to date and afterwards keep it as it should be kept. Incidentally the 50 cents charge made for certified copies has, I am sure, brought to the city far more revenue than would be expended in improving the efficiency of the service.

Knowing the interest of the various members of the council in the program of up to date public health administration, I am sure there will be no hesitancy in granting this appropriation when you fully understand the purpose for which it will be used.

Respectfully yours,

HERMAN G. MORGAN.

Indianapolis, Ind., July 6, 1936.

To the Honorable President and
Members of the Common Council of the
City of Indianapolis, Indiana.

Gentlemen:

Attached please find copies of Appropriation Ordinance No. 22, 1936, appropriating the sum of Three Thousand Dollars ($3,000.00) out of the unexpended and unappropriated 1935 balance of the gen-

eral fund of the Department of Public Parks and allocating the same to Fund No. 38—General Supplies, in said department.

I respectfully recommend the passage of this ordinance.

Yours very truly,

WALTER C. BOETCHER,
City Controller.

Indianapolis, Ind., July 6, 1936.

Mr. Walter C. Boetcher,
City Controller,
City of Indianapolis.

Dear Sir:

Attached please find nineteen copies of Appropriation Ordinance appropriating Three Thousand Dollars ($3,000.00) from the unexpended and unappropriated balance of the 1935 general fund of the Department of Public Parks to Budget Fund No. 38—Supplies.

It is necessary to ask for this appropriation inasmuch as the amount budgeted for 1936 for Fund No. 38 has proved to be inadequate.

To the Honorable President and
Members of the Common Council of the
City of Indianapolis, Indiana.

Gentlemen:

On June 15th Ordinance No. 43, establishing two taxicab stands

—one on Illinois Street in front of the Lockerbie Hotel, and one on Market Street in front of the Harrison Hotel, was introduced in Council and recommended for passage by the Board of Safety.

We now find that the ordinance requiring the establishment of taxicab stands by ordinance through the Common Council has been amended and that it is not necessary to establish taxicab stands in that way, all it now requires is the approval and recommendation of the Board of Safety.

We regret this error, and respectfully request that Ordinance No. 43, establishing the above mentioned taxicab stands, be withdrawn at the next meeting of the Common Council.

Respectfully yours,
BOARD OF PUBLIC SAFETY,
BLYTHE Q. HENDRICKS,
Executive Secretary.

Indianapolis, Ind., July 6, 1936.

To the Honorable President and
Members of the Common Council of the
City of Indianapolis, Indiana.

Gentlemen:

In making a check of ordinances I find that Appropriation Ordinance No. 21, 1936, presented to the Common Council on June 15th, 1936, was written for the purpose of paying salaries to Board of Health employees under a court order, and Appropriation Ordinance No. 13, 1936, presented to the Common Council on April 6th, 1936, was for the same purpose. Therefore, I respectfully recommend that Appropriation Ordinance No. 21, 1936, be stricken from your files.

Yours very truly,
WALTER C. BOETCHER,
City Controller.

Mr. Oren asked for a recess. The motion was seconded by Mr. Cable and the Council recessed at 7:35 p. m.

The Council reconvened at 9:00 p. m. with the same members present as before.

The sale of these bonds has been authorized by an order of the Probate Court dated May 26, 1936, under whose direction the trust is administered, and is for the purpose of raising funds with which to pay a part of the cost of the full completion and equipment of the Flower Mission Hospital and John Maurice Butler Dispensary.

I hope that it will be possible for the resolution to be passed under a suspension of the rules and become effective immediately, so that the transaction may be completed and the funds made available.

Respectfully,
JOHN W. KERN,
Mayor.

Indianapolis, Ind., July 28, 1936.

To the Honorable President and
Members of the Common Council of the
City of Indianapolis, Indiana.

authorizing the State Highway Commission of Indiana to improve Northwestern Avenue from a point 236 feet North of the center of Maple Road to the north corporation line, and authorizing the mayor of Indianapolis to enter into an agreement binding this city to maintain such improvement when made.

Indianapolis, Ind., August 3, 1936.

President and Members of the Common Council,
City of Indianapolis, Indiana.

Gentlemen:

Re: Special Ordinance No. 5, 1936.

Acting under instructions from the Board of Health, of the City of Indianapolis, I am directed to submit upon behalf of said Board the following ordinance, as per copies thereof attached hereto, accepting and approving on behalf of the City of Indianapolis, a "superseding grant agreement," submitted by the United States of America, authorizing the Board of Health to execute the same for, and on behalf of, and in the name of, the City of Indianapolis.

The "superseding grant agreement" set out in said ordinance provides for additional funds for use in connection with the construction and equipment of the Indianapolis Flower Mission Memorial Hospital and the John Maurice Butler Dispensary and Aid to the Sick Poor of Indianapolis.

Inasmuch as the Board of Health is anxious to marshal funds as quickly as possible so as to hasten the completion of this project, it requests the passage of this ordinance under suspension of the rules.

Respectfully yours,
H. G. MORGAN,
Secretary, Board of Health.

Indianapolis, Ind., August 3, 1936.

President and Members of the City Council,
Indianapolis, Indiana.

Gentlemen:

Attached find copies of an ordinance authorizing the grant to the Public Service Company of Indiana of an easement over small strips of land lying along a continuation of Northwestern Avenue. The strips contain approximately one and one-half acres (1½).

The passage of this ordinance is requested in order to obtain the necessary legal authority to complete a transaction whereby the City obtained a deed for this ground from the Indiana Public Service Company of Indiana upon the condition that in turn the City would grant a perpetual easement to said company to maintain and construct poles and lines, for the transmission of electrical energy. The net result of the transaction will be that the City obtains title to this ground at no cost to the City, except the costs of appraisements of same. This

ground is to be beautified so as to improve the view of one of the main approaches to the City.

We respectfully recommend the passage of this ordinance.

Very truly yours,
DEPARTMENT OF PUBLIC PARKS,
M. E. GRIFFIN, Secretary.

Indianapolis, Ind., July 31, 1936.

To the Honorable President and
Members of the Common Council of the
City of Indianapolis.

Gentlemen:

Your attention is directed to General Ordinance No. 53 to set aside an appropriation for the expenditure of a sum of money not to exceed Nine Thousand Two Hundred Forty and no/100 Dollars ($9,240.00) for the purchase of Canned Goods which will cover our estimated requirements up until December 31, 1936.

In view of the fact that the fruit and vegetable market has suffered severely from the drought, and that prices are pyramiding at a rapid pace, we deem it advisable to cover our prices with a contract which will insure delivery at not exceeding the bid price.

The vendor agrees to warehouse this merchandise for us and it is ordered out as needed.

Respectfully submitted,
DEPARTMENT OF PUBLIC PURCHASE,
ALBERT H. LOSCHE, Purchasing Agent.

Indianapolis, Ind., August 3, 1936.

To the Honorable President and
Members of the Common Council of the
City of Indianapolis.

Gentlemen:

We are submitting herewith General Ordinance No. 55, 1936, establishing a 36 foot "loading zone" for the Hibben-Hollweg Company at 110-116 South Meridian Street, and respectfully recommend its passage.

Respectfully submitted,
BOARD OF PUBLIC SAFETY,
BLYTHE Q. HENDRICKS, Executive Secretary.

Indianapolis, Ind., August 3, 1936.

To the Honorable President and
Members of the Common Council of the
City of Indianapolis.

Gentlemen:

Attached please find copies of General Ordinance No. 57, 1936, amending Section (2) Two of General Ordinance No. 50, 1936, entitled "An Ordinance authorizing the City of Indianapolis, Indiana, to make a temporary loan in the sum of One Hundred Twenty-five Thousand ($125,000.00) Dollars for the use of the Board of Health of said city."

I respectfully recommend the passage of this ordinance under suspension of rules.

Yours very truly,

WALTER C. BOETCHER,
City Controller.

Indianapolis, Ind., August 3, 1936.

Mr. Walter C. Boetcher,
City Controller,
Indianapolis, Indiana.

Dear Sir:

Please prepare an ordinance amending Section (2) two of General Ordinance No. 50, 1936, to read as follows:

> "Section 2. Said temporary loan shall be made by borrowing the sum of $125,000.00 for a period of seventy-nine (79) days, beginning with August 25, 1936, and ending November 12, 1936. Said loan shall mature in full and be made payable November 12, 1936. and shall bear interest only from the time the same is made available for use of the Board of Health."

At the time of the passage of General Ordinance No. 50, 1936, the Board of Health was under the impression that it would be without sufficient funds from August 1, 1936, until November 12, 1936, to meet its pay roll and current expenses necessary for the proper carrying on of the functions of said Board. It has since developed that said Board will have sufficient funds for such purposes until August 25, 1936.

Inasmuch as the City Controller has not negotiated and/or made the temporary loan provided for in General Ordinance No. 50, 1936, we request the preparation and passage, under suspension of rules, of an ordinance making the amendment as hereinabove set out.

Respectfully submitted,

BOARD OF HEALTH,

By H. G. MORGAN, Secretary.

Indianapolis, Ind., July 21, 1936.

Honorable John W. Kern, Mayor,
Indianapolis, Indiana.

Dear Mayor Kern:

The Federal Road authorities have approved certain projects in your city, to be made with Federal funds granted under the provisions of the Emergency Relief Appropriation Act, which projects are set out in the enclosed ordinance. Plans are now being prepared for these improvements, and as rapidly as they are finished, they will be forwarded to the U. S. Bureau of Public Roads for approval. When finally approved a copy of them will be sent to you.

We are enclosing an ordinance (three copies), which your city will be required to at once adopt. This is essential and must be done before the U. S. Bureau of Public Roads will finally authorize the projects in your city We are also enclosing the form of a contract to be entered into between the City and State, and providing for the maintenance of each of the projects. This contract must be executed in triplicate, after the adoption of such ordinance, and all copies sent to this commission, whereupon one copy, after execution, will be returned to you. All three copies of the contract will be certified by the City Clerk, and the seal of the city affixed where called for. Two copies of the ordinance will also be certified and forwarded to the commission, the original copy will be retained for your files.

Later it will be necessary for your city to execute an ordinance for the protection of such projects, containing the provisions where applicable, required by Section Six (6) of the ordinance enclosed. In this connection you will remember that these particular streets are being improved by the Federal Government, in order to expedite traffic through the city, and naturally the Government demands that these improvements be protected after they are made. The form of this ordinance will be prepared by the commission and forwarded to you for adoption.

If additional right of way in the city will be required for the project, you will be notified just what additional rights are required, and your city will be required to obtain such right of way at its expense.

You are urged to at once call a special meeting of the Common Council of your city, pass the enclosed ordinance, and at once return the documents to this commission, properly executed as above outlined.

If any public or municipal utility has tracks, pipes, lines or conduits in the street or streets to be improved which should be renewed or removed, your city must take immediate steps to have this done so that when awarded, the contractor may not be delayed in the performance of his contract. If there are any street, interurban or steam railroad tracks in the street to be improved, you must take steps to have the company owning them at once to put them in good condition. The tracks must be put on a good foundation, with good ties, and the rails properly aligned. If this is done, the State is authorized to improve between and above the ties to the top of the rails. If the tracks are not put in good condition, the improvement will be made only to the end of the ties. If there are any sanitary sewers in the street, they must be examined and put in good condition by the city. These matters should be attended to as soon as you are notified that the project is finally approved.

Correspondence concerning these projects should be addressed to the Commission. If your city does not desire this improvement, please notify us at once.

Very truly yours,

STATE HIGHWAY COMMISSION OF INDIANA,

JAMES D. ADAMS, Chairman.

(a) 25 per centum of the cost of the labor and materials shown in the Requisition to have been employed upon the Project if the Requisition shows that the Project has not been completed, or

(b) 30 per centum of the cost of such labor and materials if the Requisiton shows that the Project has been completed and that all costs incurred in connection therewith have been determined.

5. *Grant Advances.* At any time after the execution of this Agreement the Government may, upon request of the Grantee, if in the judgment of the Administrator the circumstances so warrant, make advances to the Grantee on account of the Grant, but such advances shall not be in excess of 30 per centum of the cost of the labor and

materials to be employed upon the Project, as estimated by the Administrator.

6. *Deposit of Grant; Construction Accounts.* The Grantee shall deposit the Grant promptly upon receipt thereof, and all funds which will be required in addition to the Grant to complete the Project, in a separate account or accounts (each of such separate accounts herein called a "Construction Account"), in a bank or banks which are members of the Federal Reserve System and of the Federal Deposit Insurance Corporation and which shall be satisfactory at all times to the Administrator.

7. *Disbursement of Monies in Construction Accounts.* The Grantee shall expend the monies in a Construction Account only for such purposes as shall have been previously specified in Requisitions filed with the Government and as shall have been approved by the Administrator. Any monies remaining unexpended in any Construction Account after the completion of the Project shall be used to meet obligations (including bonds or other indebtedness) incurred in connectoin with the construction of the Project. When there are no longer any such obligations outstanding the Grantee may use such monies for any other purpose.

8. *Other Financial Aid from the Government.* If the Grantee shall receive any funds directly or indirectly from the Government or any agency or instrumentality thereof, other than the Grant, to aid in financing the construction of the Project, to the extent that such funds are so received the Grant shall be reduced.

9. *Construction of Project.* As soon as practicable after the execution of the Agreement, the Grantee (unless it has already done so) shall commence or cause to be commenced the construction of the Project, and the Grantee shall thereafter continue such construction or cause it to be continued to completion with all practicable dispatch, in an efficient and economical manner, at a reasonable cost and in accordance with the provisions of this Agreement, plans, drawings, specifications and construction contracts which shall be satisfactory to the Administrator, and under such engineering supervision and inspection as the Administrator may require. Except with the written consent of the Administrator, no materials or equipment for the Project shall be purchased by the Grantee subject to any chattel mortgage, or any conditional sale or title retention agreement.

10. *Completion of Proceedings.* As soon as practicable after the execution of this Agreement, the Grantee (unless it has already done so) shall obtain, or will take proceedings appropriate to obtain

funds, which, together with the Grant, will be sufficient to pay all costs of constructing the Project.

11. *Construction Work.* All work on the project shall be done subject to the rules and regulations adopted by the Administrator to carry out the purposes and control the administration of the Act. By the act of executing this Agreement the Grantee acknowledges receipt of a copy of the construction regulations set out in Bulletin No. 2, Non-Federal Projects, revised March 1, 1935, as amended, entitled "P. W. A. REQUIREMENTS as to BIDS, CONTRACTORS' BONDS, AND CONTRACT, WAGE AND LABOR PROVISIONS AND GENERAL INSTRUCTIONS as to APPLICATIONS AND LOANS AND GRANTS," and covenants that said rules and regulations, with all blank spaces filled in as provided in said Bulletin (the word "Borrower" as used therein being construed as meaning "Grantee") will be incorporated verbatim in ALL CONSTRUCTION CONTRACTS for work on the Project.*

12. *Force Account.* All construction work on the Project shall be done under contract, provided, however, that if prices in the bids are excessive, the Grantee reserves the right, anything in this Agreement to the contrary notwithstanding, to apply to the Administrator for permission to do all or any part of the Project on a force account basis.

13. *Bonds and Insurance.* Construction contracts shall be supported by adequate surety or other bonds or security satisfactory to the Administrator for the protection of the Grantee, or materialmen, and of labor employed on the Project or any part thereof. All contractors and subcontractors under construction contracts shall be required to provide, if required by the Administrator, public liability and property damage insurance in an amount satisfactory to the Administrator.

14. *Information.* During the construction of the Project the Grantee shall furnish to the Government all such information and data as the Administrator may request as to the construction, cost and progress of the work.

---

* Particular care should be taken by the Grantee that in all construction contracts *the following words* are inserted in the blank space in Paragraph 3 (a) (1) of the rules and regulations: the City of Indianapolis and/or Marion County, and *the following words* are inserted in the blank space in Paragraph 3 (a) (2) of the rules and regulations: State of Indiana.

15 *Representations and Warranties.* The Grantee represents and warrants as follows:

(a) *Litigation.* No litigation or other proceedings are now pending or threatened which might adversely affect the construction and operation of the Project, or the financial condition of the Grantee;

(b) *Financial Condition.* The character of the assets and the financial condition of the Grantee are as favorable as at the date of the Grantee's most recent financial statement furnished to the Government as a part of the Application, and there have been no changes in the character of its assets or in its financial condition except such changes as are necessary and incidental to the ordinary and usual conduct of the Grantee's affairs;

(c) *Fees and Commissions.* It has not paid and does not intend to pay any bonus, fee or commission in order to secure the Grant hereunder;

(d) *Affirmation.* Every statement contained in this Agreement, in the Application, and in any supplement thereto or amendment thereof, and in any other document submitted to the Government is correct and complete, and no relevant fact materially affecting the Grant or the Project, or any of the duties or obligations of the Grantee under this Agreement has been omitted therefrom.

16. *Expenses.* The Government shall be under no obligation to pay any costs, charges or expenses incident to compliance with any of the duties or obligations of the Grantee under this Agreement including, without limiting the generality of the foregoing, any legal, engineering or accounting costs, charges or expenses incurred by the Grantee.

17. *Waiver.* Any provision of this Agreement may be waived or amended with the consent of the Grantee and the written approval of the Administrator, without the execution of a new or supplemental agreement.

18. *Interest of Member of Congress.* No Member of or Delegate to the Congress of the United States of America shall be admitted to any share or part of this Agreement, or to any benefit to arise thereupon.

19. *Naming of Project.* The Project shall never be named except with the written consent of the Administrator.

20. *Insurance on Project* The Grantee shall, during the life of the Project, maintain proper and adequate insurance thereon.

21. *Undue Delay by the Grantee.* If in the opinion of the Administrator, which shall be conclusive, the Grantee shall delay for an unreasonable time in carrying out any of the duties or obligations to be performed by it under the terms of this Agreement, the Administrator may cancel this Agreement.

22. *Conditions Precedent to the Government's Obligations.* The Government shall be under no obligation to make any part of the Grant:

(a) *Financial Condition and Budget.* If, in the judgment of the Administrator, the financial condition of the Grantee shall have changed unfavorably in a material degree from its condition as theretofore represented to the Government, or the Grantee shall have failed to balance its budget satisfactorily or shall have failed to take action reasonably designed to bring the ordinary current expenditures of the Grantee within the prudently estimated revenues thereof;

(b) *Cost of Project.* If the Administrator shall not be satisfied that the Grantee will be able to complete the Project for the sum of $206,800, or that the Grantee will be able to obtain, in a manner satisfactory to the Administrator, any additional funds which the Administrator shall estimate to be necessary to complete the Project;

(c) *Compliance.* If the Administrator shall not be satisfied that the Grantee has complied with all the provisions contained in this Agreement theretofore to be complied with by the Grantee;

(d) *Legal Matters.* If the Administrator shall not be satisfied as to all legal matters and proceedings affecting the Grant or the Project;

(e) *Representations.* If any representation made by the Grantee in this Agreement or in the Application or in any supplement thereto or amendment thereof, or in any document submitted to the Government by the Grantee shall be found by the Administrator to be incorrect or incomplete in any material respect.

23. *Termination of Previous Grant Agreements.* It is specially understood and agreed that certain Grant Agreement heretofore entered into by and between the parties hereto as of September 21, 1934

(P. W. A. Docket No. 8436); and of June 19, 1935 (P. W. A. Docket No. 8436-A) for the making of grants to aid in financing the construction of the Project, by mutual consent, are hereby terminated as of the date of the execution of this Agreement.

This Agreement shall be binding upon the parties hereto when a copy thereof, duly executed by the Grantee and the Government, shall have been received by the Grantee. This Agreement shall be governed by and be construed in accordance with the laws of the State. If any provision of this Agreement shall be invalid in whole or in part, to the extent it is not invalid it shall be valid and effective and no such invalidity shall affect, in whole or in part, the validity and effectiveness of any other provision of this Agreement or the rights or obligations of the parties hereto, provided, however, that in the opinion of the Administrator, the Agreement does not then violate the terms of the Act.

IN WITNESS WHEREOF, the Grantee and the Government have respectively caused this Agreement to be duly executed as of

Indianapolis, Ind., August 17, 1936.

To the Honorable President and
Members of the Common Council of the
City of Indianapolis, Indiana.

Gentlemen:

I hereby submit to your honorable body, pursuant to the statutes of the State of Indiana, the proposed budgets of the departments of government of the City of Indianapolis for the year 1937, together with the proposed tax levies for the general fund and each separate fund, and also the budget of the estimated receipts of the special street fund to be derived from the gasoline fund, all of which is hereto attached and which has been transmitted by and with the recommendation of the Honorable Walter C. Boetcher, City Controller, as required by law.

In your consideration of the budget, I assure you that the services of the controller, board members and department heads, and myself, are at your disposal. We will be glad to appear before you and give you all the information we possess.

Respectfully,
JOHN W. KERN,
Mayor.

Indianapolis, Ind., August 17, 1936.

To the Honorable President and
Members of the Common Council of the
City of Indianapolis, Indiana.

Gentlemen:

Having this day transmitted to you the proposed budgets of the departments of government of the City of Indianapolis, I feel that it is appropriate for me to communicate with you more in detail concerning certain specific problems raised by the proposed budget, particularly those having to do with certain increased expenditures.

The largest item of increased expenditures consists of a partial restoration of salary reductions made during the dark days of the depression, when government, as well as business, was struggling to survive, and at a time when the prices of commodities and rentals were on the lowest plane they had been since the World War. Last year, in view of a rise in commodity prices and in the cost of living generally, there was a considerable movement for some restoration of these salary cuts, but in view of the fact that an extraordinarily large amount of obligations of the City of Indianapolis were maturing this present fiscal year, and in view of the fact that certain important Acts had been passed by the General Assembly of 1935 which threatened a curtailment of certain important anticipated revenues of the city, it was felt by the administration that any such partial restoration must be postponed This year, we have seen a continuation in the increase of prices for the necessities of living accompanied by a return to what may be considered normal prosperity, with tax delinquencies practically non-existent. We have also seen, during the past year, in private business and in other municipalities throughout the country, general widespread restorations of pay and salary cuts made necessary by the depression. Therefore, in the present proposed budget, an increase in the salary accounts appears which will approximate half of the fifteen per cent salary reductions incurred by city employees during the depression years. Among certain groups of city employees, however, such as, for example, those employees who received as wages six hundred dollars per year or less, and also those laborers employed by the city on an hourly rate, the increase will be found to be a greater per cent.

Another item in which expenditures have increased is that which calls for the purchase of new equipment, or for repair parts for the present equipment owned by the City of Indianapolis. This is made necessary by reason of the fact that for the past five years stringent economies have been practiced throughout all the departments of government with regard to such expenditures, and as a result the equipment of the city has deteriorated to the extent that replacements must be made and more money spent for repairs. It should be pointed out that the administration has followed the pay-as-you-go plan, and has felt it well to make these purchases out of current revenues and not by the costly method of bond issues.

Another item of increased expenditures is the appropriation appearing for the first time in the city budget for the operation of the Flower Mission Unit at the City Hospital. This unit, which was recently erected by funds contributed through the generosity of the Flower Mission Society, the PWA, and funds available to the city out

of the Snow-Butler trust, is large enough to care for one hundred tubercular patients. Calculated at a minimum of two dollars per day per patient, the funds necessary for the operation of this hospital unit would amount to approximately seventy-four thousand dollars. Owing to the limitations by law governing the tax rate for the Board of Health generally and the tuberculosis prevention funds, it is impossible to provide the amount of money necessary for the operation of the entire unit. However, by the shifting of school health work to another fund, and the utilization of certain balances, we have been able to provide in the budget for the maintenance of this unit on the basis of fifty patients per day.

Another item that I wish to call your attention to is the proposed one-cent levy for the track elevation fund. One of the main objectives of this administration is to attain the long-sought goal of elevating the tracks, particularly on the South side of Indianapolis. Repeated efforts have been made to have this made a Federal WPA project, and one such application is now pending before the Works Progress Administration. Even if this is made a WPA project, it will be necessary, as you know, for the city to make substantial contributions, and it would, in the opinion of the administration, be much more advisable to finance these contributions as much as possible out of a proper fund than to issue bonds for the entire amount of the city's contribution. If the project is rejected by the Works Progress Administration, this fund, in the opinion of the administration, should be increased by periodic levies until it reaches a figure which will permit the city to proceed with this work under the track elevation law.

While the proposed budget calls for an increase of approximately thirteen cents over the present tax rate, it should be noted that the assessed valuation of taxable property in the City of Indianapolis is only $498,000,000 for the next year, as compared with $691,000,000 in 1931. If the assessed valuation of taxable property in Indianapolis were the same now as it was in 1931, we would have one of the lowest tax rates in the recent history of Indianapolis. It should also be noted that the taxes to be raised by levy according to the proposed budget is the third lowest amount of taxes to be raised by such levy within the last ten years. The only two lower levies within the last ten years were last year and the year before. This comparison relates to the City general fund.

Respectfully,

JOHN W. KERN,
Mayor.

GENERAL FUND: The above schedule contemplates unexpended appropriation balances of $200,000.00 on December 31, 1936, in order to produce the tax levy required of $.6876.

CITY SINKING FUND: The total amount, $353,236.25 required for maturities July 1, 1937 and December 31, 1937, is $36,630.00 greater than 1936 therefore a rate of $.0683 is necessary which is $.0072 greater than the rate for 1936.

FLOOD PREVENTION SINKING: The above schedule contemplates an unexpended appropriation balance of $6,000.00 December 31, 1936. The total required amount, $139,007.50 for 1937 maturities is $2,812.50 less than the required amount for 1936, and the required levy for 1937 is $.0006 less than the required levy for 1936.

WORLD WAR MEMORIAL FUND: There is no contemplated unexpended appropriation balance on December 31, 1936, therefore a levy of $.0208 is necessary to meet the maturities for 1937.

TRACK ELEVATION: It is thought best to increase, periodically, by taxation the Track Elevation Fund, in order to reduce any bond issue required to meet the cost of the project at some future date.

MUNICIPAL AIRPORT: Sufficient funds not being available in 1937 from the revenues contemplated from this department, it becomes necessary to create a levy of $.001. The amount required is $4,984.34.

TAX LEVY RECEIPTS: Estimated receipts from proposed levy in 1937 have been computed on the basis of estimated taxable property in the amount of $498,434,360.00 which is $6,160,970.00 less than the valuation for 1936 due to an exemption of $4,196,000.00 assessed against the Utility District, and other decreased valuations.

THIS AGREEMENT made the_____day of_____ in the year Nineteen Hundred and Thirty-six by and between E. W. HAUSER, doing business under the firm name and style of E. W. HAUSER CONSTRUCTION CO., hereinafter called the Contractor, and the CITY OF INDIANAPOLIS, by and through its BOARD OF PUBLIC SAFETY, hereinafter called the Owner, WITNESSETH, that the Contractor and the Owner for the considerations hereinafter named agree as follows:

Article 1. *Scope of the Work*—The Contractor shall furnish all of the materials and perform all of the work shown on the Drawings and described in the Specifications entitled:

GENERAL CONSTRUCTION—FIRE STATION NO. 18, Indianapolis, Indiana, to be located on property deeded to the City of Indianapolis by the State of Indiana for the purposes of erecting a Fire Station thereon, said Drawings and Specifications having been prepared by PIERRE & WRIGHT, Architects, Indianapolis, Indiana, acting as and in these Contract Documents entitled the Architect; and shall do everything required by this Agreement, the General Conditions of the Contract, the Specifications and the Drawings. It is mutually agreed and understood by and between the parties hereto that the Contractor hereby agrees to furnish to the Owner all materials and labor of every kind needed in the building and construction of, and to build, construct and complete in all its details ready for use by the Owner all the work for the General Construction of the said Fire Station No. 18, exclusive of Plumbing, Heating, Ventilating, Electric Wiring, Painting and Vehicle Approaches. Article 2. *Time for Completion*—The work to be performed under this Contract shall be substantially completed by December 15, 1936.

Article 3. *The Contract Sum*—The Owner shall pay the Contractor for the performance of the Contract, subject to addi-

tions and deductions provided therein, in current funds as follows: Fifteen Thousand Nine Hundred Seventy Dollars ($15,970.00). Where the quantities originally contemplated are so changed that application of the agreed unit price to the quantity of work performed is shown to create a hardship to the Owner or the Contractor, there shall be an equitable adjustment of the Contract to prevent such hardship.

Article 4. *Progress Payments*—Each month when payments are due during the progress of the work, the Architect will issue to the Contractor a certificate addressed to the Owner showing that the Contractor is entitled to a payment on account of part of the Contract Price; such certificate to be eighty-five per cent (85%) of the Contract value of labor and material, due and payable, that are then in the work and permanently in place in the building, as estimated by the Architect, and the Owner will pay to the Contractor the amount of each such estimate within approximately ten (10) days after receipt of the Architect's certificate. The unpaid balance of the Contract Price will be paid by the Owner to the Contractor within sixty-five (65) days after the Architect has certified to the Owner that the Contractor has fully and faithfully completed his Contract, including all additional work authorized by the Owner, agreeably to the Drawings and Specifications and to the satisfaction of the Architects and Owner, and upon the Contractor giving a sufficient release, accompanied by an affidavit, to the Owner showing to the Owner's satisfaction that he has fully paid all sub-contractors, suppliers, laborers, and material-men whose labor or material has entered into the work and that all claims and demands whatsoever in any manner growing out of this Contract are fully and completely satisfied. No payment shall be made on account of materials delivered or stored on the site but not permanently incorporated in the work. Monthly certificates will be issued after a showing to the Owner, by properly receipted bills, that such percentage of the Contractor's obligations up to that month period have been duly discharged.

"(4) In case any of said payments set forth in Article 8 are in default for a period of more than sixty days, the City shall, at its election, have the right to terminate said entire contract by resolution to that effect regularly adopted by the Common Council, approved by the Mayor, and a copy thereof served upon the President of Indianapolis Railways, Incorporated.

"Section 2. This ordinance shall be in full force and effect from and after its passage and approval by the Mayor, and the said contract as modified in Section 1 of this Ordinance shall become binding between the City of Indianapolis and Indianapolis Railways, Incorporated, upon the filing with the City Clerk of a written acceptance thereof by Indianapolis Railways, Incorporated, and upon approval

In re: General Ordinances Nos. 64 and 65 and Appropriation Ordinances Nos. 27, 28 and 29.

WALTER C. BOETCHER,

Indianapolis, Ind., September 29, 1936.

Walter C. Boetcher,
City Controller,
City of Indianapolis.

Dear Sir:

We find it necessary to ask for appropriations to several funds in the Dog Pound budget, and one fund in the City Market budget, to carry on for the remaining months of the year.

We, therefore, ask that you cause to be prepared an ordinance ap-

propriating from the unexpended and unappropriated 1935 balance of the City general fund the sum of One Thousand Twenty-five ($1,025.00) Dollars; Five Hundred Twenty-five ($525.00) Dollars to Dog Pound funds as follows:

Respectfully submitted,
BOARD OF PUBLIC SAFETY,
By THEO. H. DAMMEYER, President.

Indianapolis, Ind., October 3, 1936.

Walter C. Boetcher,
City Controller,
City of Indianapolis.

Dear Sir:

It will be necessary for us to have an additional appropriation of $2,600 to our Fund 53—Refunds, Awards and Indemnities. On October 1st the balance in this fund was $537.97. Out of this fund is paid the weekly compensation to injured employees of the city. At the present time our compensation roll is $122.35 weekly, so that the sum of $1,590.55 will be required for this item from October 1st to December 31st.

This fund is also used for the payment of the settlement of claims for damages against the City of Indianapolis. Based upon the amount expended from the 1st of October to the 31st of December for the past

four years in the settlement of claims, it is my opinion that we will need at least $1,000 for this purpose.

Very truly yours,
JAMES E. DEERY,
Corporation Counsel.

Indianapolis, Ind., October 5, 1936.

To the Honorable President and
Members of the Common Council of the
City of Indianapolis.

I respectfully recommend the passage of this ordinance.

Indianapolis, Ind., October 5, 1936.

Mr. Walter C. Boetcher,
City Controller,
City of Indianapolis.

Dear Sir:

The Board of Safety has approved the recommendation of Michael Morrissey, Chief of Police, that there be set up in the Board of Safety budget a fund known as No. 73—Land—and that there be transferred and reappropriated thereto from the Police Department budget, Fund No. 11—Salaries and Wages, Regular, Patrolmen First Grade, the sum of Forty-five Hundred ($4,500.00) Dollars—for the purpose of purchasing ground adjoining the ground on which the present Police Department garage is located in order to build an addition to the garage.

We ask that you cause such an ordinance to be prepared and pre-

sented to the Common Council for passage at their meeting to be held tonight, October 5, 1936.

Respectfully submitted,
BOARD OF PUBLIC SAFETY,
By THEO. H. DAMMEYER, President.

Indianapolis, Ind., October 5, 1936.

To the Honorable President and
Members of the Common Council of the
City of Indianapolis, Indiana.

Gentlemen:

Attached please find copies of General Ordinance No. 66, 1936, transferring moneys from certain funds to other designated funds.

I respectfully recommend the passage of this ordinance.

Yours very truly,
WALTER C. BOETCHER,
City Controller.

Indianapolis, Ind., September 29, 1936.

Mr. Walter C. Boetcher,
City Controller,
City of Indianapolis.

Dear Sir:

We are advised by Thomas Tarpey, Weights and Measures Department, that his budget Fund No. 33—Garage and Motor Supplies —is practically depleted, and the Board of Safety has approved his request for the following transfer and reappropriation of funds in the Weights and Measures budget:

One Hundred ($100.00) Dollars from Fund No. 11—Salaries and Wages, Regular—to Fund No. 33—Garage and Motor Supplies.

We ask that you prepare the necessary ordinance for the transfer of this money and present same to the Common Council at their next meeting.

Respectfully submitted,
BOARD OF PUBLIC SAFETY,
By THEO. H. DAMMEYER, President.

Indianapolis, Ind., October 5, 1936.

Hon. Walter C. Boetcher,
City Controller.

Dear Sir:

We are handing you herewith copies of an ordinance, requesting the transfer of the sum of $2,500.00 from Park General Fund No. 43—Street and Alley Materials, into Fund No. 224—Water.

This transfer is made necessary due to two facts. When the 1936 budget was prepared no provision was made for water for the fourteen wading pools as these pools were not then contemplated. The total cost of water for these pools in 1936 has been $1,551.23. Added to this, the drought of this summer has increased our general water bills to such a degree that our budget provision is proving much too low.

We are requesting that this ordinance be presented to the Common Council at its next meeting, with the recommendation of the Board of Park Commissioners that the same be passed.

Respectfully yours,
L. RICH,
Auditor.

At this point Mr. Wallace and Mr. Cable entered and were counted present.

Mr. Cable asked for a recess. The motion was seconded by Mr. Kealing and the Council recessed at 7:35 p. m.

The Council reconvened at 8:40 p. m., with all members present.

COMMUNICATIONS FROM CITY OFFICIALS

Indianapolis, Ind., October 23, 1936.

Mr. Daniel J. O'Neill, Jr.,
City Clerk,
City of Indianapolis.

Dear Sir:

This day and date I received a letter from the Legal Department, copy of which is enclosed. You will note from the contents of the letter the necessity of calling a Special Meeting of the Council, and since this matter is a very important one I not only recommend but request that a Special Meeting be called at the earliest possible date.

Thanking you in advance for your cooperation in this matter, I remain,

Yours very truly,
WALTER C. BOETCHER,
City Controller.

Indianapolis, Ind., October 22, 1936.

Mr. Walter C. Boetcher,
City Controller,
Indianapolis, Ind.

Dear Mr. Boetcher:

On October 3rd, 1936, I addressed a letter to you, requesting an

additional appropriation to Fund 53 in the Department of Law in the sum of $2,600, in which I stated that the balance in this fund as of October 1, 1936, was $537.97, and that out of this balance we would be called upon to pay the weekly compensation to injured employees of the city at the rate of approximately $122.35 each week, and that, therefore, in my opinion, $1,590.55 would be required for this item from October 1 to December 31, 1936. I also called your attention to the fact that this fund is also used for the payment of the settlement of claims for damages against the city and that, in my opinion, $1,000 would be needed for the balance of the year for this purpose.

Acting upon my request, you recommended to the Common Council the passage of Appropriation Ordinance No. 30, 1936, which was introduced at the meeting of the Council of October 5, 1936.

For some reason the council deferred acting on this ordinance at the meeting of October 19, with the result that the balance now in this fund is $38.27, which includes the compensation payments payable on October 24, 1936.

Inasmuch as the next regular meeting of the Common Council will be on November 2, 1936, unless a special meeting is called and the council acts favorably on the passage of this ordinance, the city will be unable to make the compensation payments due Saturday, October 31, and thereafter until such time as the additional appropriation requested and provided for in this ordinance is available. Of course, you understand that the compensation payments are made pursuant to the order of the Industrial Board of Indiana, and we have no choice but to make these payments. A number of persons on our compensation roll are widows of men who were killed in the course of their employment by the city or as a result of accidents suffered during such employment. It will, of course, work a hardship on these people not to receive their weekly checks when due.

I am submitting the above facts to you so that you may take such steps as you deem proper.

Very respectfully yours,

(Signed) JAMES E. DEERY,
Corporation Counsel.

Indianapolis, Ind., October 28, 1936.

Mr. Walter Boetcher,

Dear Sir:

The Board of Public Works & Sanitation respectfuuly requests that you cause to be prepared an ordinance transferring the sum of $650.00 from Sanitation Administration Fund No. 61 and re-appropriating the same to the following numbered funds:

$350.00—Collection Dept. Fund No. 22.
200.00—Collection Dept. Fund No. 32.
100.00—Collection Dept. Fund No. 53.

This transfer is made necessary by the extreme winter causing overtime burning of lights, more fuel needed and more men injured than anticipated.

The Board of Public Works & Sanitation respectfully requests that you submit the same to the Common Council at its next meeting with the recommendation from us that the same be passed.

Very truly yours,
BOARD OF PUBLIC WORKS & SANITATION,
By ERNEST F. FRICK, Secretary.

Indianapolis, Ind., October 28, 1936.

Mr. Walter C. Boetcher,
City Controller,
Indianapolis, Indiana.

Dear Sir:

The Board of Park Commissioners must pay $2,000.00 under the

terms of an option lease made in 1916 with the Cooper Heirs and which option expired October 14th of this year.

The lease with the Cooper Heirs for the ground in the north end of the nursery provided for the payment of $$2,480.00 at the expiration of twenty years, and for the payment of $2,000.00 for buildings on the land, and which have been removed, if the ground was not purchased. At the last meeting of the Board, it was decided to pay $2,000.00 and not exercise the option. It will therefore be necessary to transfer $700.00 from Fund 73—(appropriation for purchase of park) into Fund No. 53—Refunds, Awards and Indemnities. $1,300.00 will be paid from the balance now in Fund No. 53 and the balance will have to be transferred.

The Board therefore requests that an ordinance be prepared covering this transfer.

Very truly yours,
BOARD OF PARK COMMISSIONERS,
By M. E. GRIFFIN, Secretary.

Indianapolis, Ind., October 27, 1936.

Walter C. Boetcher,
City Controller,
City of Indianapolis.

To the President and Members of the Common Council

In re: Special Ordinance No. 6, 1936.

Gentlemen:

Acting under instructions from the Board of Health of the City of Indianapolis, I submit, on behalf of said board, an ordinance, as per copies thereof hereto attached, accepting, on behalf of the City of Indianapolis, the offer of the United States of America to aid in the construction and equipment of a new service building unit at the Indianapolis City Hospital by a grant of forty-five per cent (45%) of the total cost of such building, said grant not to exceed the sum of $70,650.00.

Inasmuch as said offer and grant is conditioned upon certain time limits therein contained, the Board of Health respectfully requests the passage of this ordinance under suspension of the rules, so

that the board may proceed with the least possible delay to consummation of the project.

Respectfully submitted,
H. G. MORGAN,
Secretary, Board of Health.

Indianapolis, Ind., November 14, 1936.

Mr. Daniel J. O'Neill, Jr.,
City Clerk,
Indianapolis, Indiana.

Dear Sir:

I am enclosing herewith fourteen copies of General Ordinance No. 74, 1936, entitled:

AN ORDINANCE concerning the salaries, wages and compensation of officers and members of the Indianapolis Police Department and members of the Indianapolis Fire Department, Indianapolis, Indiana, supplementing, suspending and repealing any and all general, special and appropriation ordinances heretofore enacted and in conflict herewith; also of any ordinance of the City of Indianapolis, Indiana, or any executive order heretofore made by any Board, Commission, Department or governing body of any department or official of said City; and fixing a time when the same shall take effect.

Due to the increase in the price of foodstuffs, rent and practically all of the necessities of life, I feel that the City of Indianapolis should restore to the Indianapolis Police Department and the Indianapolis Fire Department not only the full amount of the pay which was taken from them but that the salaries should be increased in comparison with the cost of living.

The Police and Firemen of this city have been first to extend a helping hand where charity and relief were needed, in many cases long before charitable organizations had the opportunity to give relief. The average Police Officer and Fireman has been obliged to give at least ten per cent of his salary in donations to various relief matters including various benefits and charitable enterprises.

I think the City of Indianapolis should appreciate the good work that these men are doing, not only in promoting public safety but in reducing fire losses to a minimum resulting in lower insurance rates. At this time when many large corporations and business men in general are endeavoring to increase the salaries of their employees I feel

that our Municipal Government should not be backward or stringent in rewarding the men who have served Indianapolis wholeheartedly in promoting its safety and general welfare.

I again submit this Ordinance asking for a reasonable and substantial increase in the Police and Firemen's salaries to cope with the higher cost of living and also to restore to them cuts that were taken in the past.

Yours very truly,
EDWARD R. KEALING,
City Councilman.

Indianapolis, Ind., November 14, 1936.

Indianapolis, Ind., December 21, 1936.

Mr. Walter C. Boetcher,
City Controller,
City Hall,
Indianapolis, Indiana.

Dear Sir:

Under instructions of the Board of Health, I am transmitting copies of General Ordinance No. 84, 1936, an ordinance authorizing the issuance of two hundred ten (210) bonds of One Thousand Dollars each and the sale of ninety-five (95) of said bonds for the purpose of procuring funds with which to aid in the construction and equipment of a new building at the Indianapolis City Hospital.

The Board of Health proposes to construct and equip a building of either two or five floors, the erection of a five-floor building to depend upon the action of the United States of America with reference to an application for a grant of money to aid in the construction of the five-floor building. A similar grant offer on the two-floor building has already been made to, and accepted by, the city. It is estimated that the proceeds from the sale of ninety-five (95) bonds will be sufficient, coupled with the grant of the United States of America, heretofore offered and accepted, to construct the two-floor building.

Upon receipt of notice of favorable action by the United States Government, on the before mentioned application, the board shall then request the Council to pass an ordinance authorizing the sale of the balance of the bonds provided for in this ordinance, in order to procure funds with which to construct a building of five floors.

In order to comply with the regulations of the United States Government as to the beginning of construction of the building, it is of

vital importance that the necessary steps to raise these funds be taken immediately. Therefore, the Board of Health respectfully requests that you present this ordinance to the Common Council at its next meeting with a recommendation for its passage under suspension of the rules.

The Board further requests you to recommend to the Council that General Ordinance No. 83, 1936, be stricken from the files.

Respectfully yours,
H. G. MORGAN,
Secretary, Board of Health.

Gentlemen:

Attached please find copies of Appropriation Ordinance No. 35, 1936, appropriating to the Department of Health and Charities the proceeds derived from the sale of "City Hospital Bonds of 1937—First Issue."

Yours very truly,

WALTER C. BOETCHER,
City Controller.

Respectfully submitted,
